Traveling, Cooking, Listening Music, reading, Gardening.

ABOUT ME

I am a Frontend Developer with a passion for crafting delightful digital interfaces. My journey includes collaborative projects that aim to create user-friendly and visually appealing web experiences. I am eager to contribute my skills to a nurturing development environment where continuous learning is valued. Committed to continuous learning and staying updated with the latest industry trends.

MY PROJECTS

1.Tech Gadget

🔗 Live Link   🔗 Client Code   🔗 Server Code

Project Description:
This is a Tech Products management website. Where user can see Different kinds of Tech Products, they can give reviews and vote of those products. This website has 3 roles -Admin, moderator and user. Admin can Manage user, manage coupon and see overview of the site. Moderator can manage users post , Reported Contents etc. Register user can Add their products for votes and reviews.

Used Technology :
React, Firebase, Swiper, Tailwind, Daisyui, JWT, Express and MongoDB.

2.Lartisien

🔗 Live Link   🔗 Client Code   🔗 Server Code

Project Description:
This is a simple Hotel Booking website. Where user can see Hotel Overview throw this site. They can book their preferred rooms in this site. After booking rooms User can post reviews for those rooms. I added simple animation in home page.

Used Technology:
React, Firebase, AOS, Tailwind, Daisyui, JWT, Express and MongoDB.

3.Shopify

🔗 Live Link   🔗 Client Code

Project Description:
In this website I add some question's answer in home page this will help for visitors. I add some private routes user can visit these when loggedin. User can add product and update product in this website. User can add product in cart and delete item from cart.

Used Technology:
React, Firebase, AOS, Tailwind, Daisyui,
